

### Ceiling Panels with Glasbord® + Kemply® + Sanigrid®

GLASBORD EMBOSSED | WHITE (85) AND SANIGRID CEILING GRID SYSTEM

For ceilings with superior dependability, one product rises above the others: Crane Composites fiberglass reinforced plastic (FRP) ceiling panels. Our Glasbord and Kemply ceiling panels combined with our Sanigrid II grid systems are the ideal solution for high humidity and chemical environment installations.

Count on Crane Composites ceiling panels for their moisture and corrosion resistance and a surface that won't rust, pit, dent, bend or peel. Our Glasbord panels, with patented Surfaseal® finish, are up to 10 times easier to clean and up to six times more stain resistant than traditional FRP systems. For added structural strength, choose our Kemply panels, which are fabricated by laminating a Glasbord panel to a rigid substrate. With all the durability and hygiene benefits of our Glasbord products, Kemply panels are just as easy to install – they can be applied directly to studs or used as lay-in ceiling panels. For a grid ceiling, choose our Sanigrid II system, which uses a series of pre-notched main tees and cross members to lock in the grid. It allows for fast installation, with the entire system easily snapping together. No matter which Crane Composites ceiling system you select, the end result is a simple, sanitary solution that's designed to last.

APPLICATION **Ceiling Solutions**

frp panel & grid solutions

#### product line

##### CEILING PANELS

Glasbord embossed + smooth in Class A or Class C Fire Rating per ASTM E-84 (FX, CGI, PSIF). Available in 2' x 2' + 2' x 4' panel sizes.

##### LAMINATED CEILING PANELS

Kemply with three substrate options laminated to Glasbord embossed + smooth in Class A or Class C Fire Rating per ASTM E-84 (PWI, PIF, PSIF, FX, FS). Available in 2' x 2' + 2' x 4' panel sizes.

##### CEILING GRID SYSTEMS

Sanigrid Class A Fire Rating per ASTM E-84 (SAN)

#### applications

- Food Processing Plants
- Chemical Processing Plants
- Refrigerated Warehouses
- Commercial Kitchens
- Laboratories
- Car Washes
- Indoor Swimming Pools
- Cleanrooms

## Ceiling Panel Options

### GLASBORD CEILING PANELS

Embossed White | 85

Smooth White | 85 \*

### SANIGRID CEILING GRID SYSTEM

### KEMPLY LAMINATED CEILING PANEL SUBSTRATES

Gypsum  
1/2" | 5/8"

Plywood  
3/8" | 1/2" | 5/8" | 3/4"

Oriented Strand Board  
3/8" | 1/2" | 5/8"

Fluted Polypropylene  
0.32" | 0.40"

Double-Sided ACP Core  
0.12" | 0.24"

\* AVAILABLE IN CLASS C PER ASTM E-84 AND CAN/ULC-S102 ONLY

MINIMUM ORDER QUANTITIES AND OTHER TERMS MAY APPLY.

DUE TO LIMITATIONS OF THE PRINTING PROCESS, PATTERNS AND COLORS MAY VARY. THEY ARE A REPRESENTATION OF THE PRODUCT. PLEASE OBTAIN A SAMPLE BEFORE MAKING A FINAL SELECTION AT FRPSAMPLES.COM

### more than 65 years

A global leading provider of resilient wall and ceiling coverings. Kemlite® was established in 1954 and the company changed names to Crane Composites in 2007. Crane Composites is headquartered in Channahon, IL and all our products are manufactured in the United States. We work with hundreds of distributors, ensuring our products are easily accessible and readily available to our customers.

### greenguard certified

All Crane Composites wall and ceiling coverings have earned GREENGUARD Certification for low chemical emissions, issued by UL Environment. This certification reflects our dedication to improving the quality of our products, while using low-emitting materials in their construction.

Thanks to their environmental benefits, the use of Crane Composites products may also contribute to earning LEED® certification.
